

Harbour Energy plc's admission onto the London Stock Exchange's Main Market

BWEA notes the admission of Harbour Energy plc onto the London Stock Exchange's Main Market, following the completion of the merger transaction between Chrysaor Holdings Limited and Premier Oil plc dated 1 April 2021.

BWEA worked closely together with our technical alliance partner ERCE, project managing the joint ERCE-BWEA team, to deliver a Competent Person's Report ('CPR') in relation to the assets of Chrysaor Holdings Limited, which was a key supporting document for this transaction.

The Chrysaor CPR project, awarded to ERCE with sub-contractor BWEA, encompassed numerous producing hubs and several additional discoveries in the UK and Norwegian sectors, was successfully delivered to meet the tight milestones required for the timely release of the prospectus.

The preparation of this major report has demonstrated that our two companies are able to successfully fulfil a key aim of our technical alliance ([read more](#)): to provide continuity of resources auditing and commercial advisory support.
